

## **Dr. Hari Prasad Muruva**

Hari Prasad Muruva is a Scientific Officer at Bhabha Atomic Research Centre, Mumbai. His research primarily focuses on risk and reliability analysis, probabilistic safety assessment (PSA) and risk-based inspection of power plants. He has collaborated on several national and international projects and has got a credit of two books and several research publications. Recipient of “DAE Young Engineer Award 2011” and recipient of “Technical excellence award” for contributions towards “Dynamic reliability based risk analysis of passive safety systems” by Society of Reliability Engineering,

Quality & Operations Management, 2012. Received Post-Doctoral Fellowship at Steinbeis Advanced Risk Technologies, Stuttgart, Germany from 2014 to 2016.
